### What is this product?

Mirae Asset Horizons S&P Global Consumer Brands ETF (the "Sub-Fund") is an investment fund of the Mirae Asset Horizons Exchange Traded Funds Series, which is an umbrella unit trust established under Hong Kong law. The Sub-Fund is an index tracking ETF falling under Chapter 8.6 and Appendix I of the Code on Unit Trusts and Mutual Funds issued by Securities and Futures Commission. The units of the Sub-Fund (the "Units") are traded on The Stock Exchange of Hong Kong Limited (the "SEHK") like stocks.

### Objective and investment strategy

#### Objective

The Sub-Fund seeks to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the S&P Global Consumer Enterprises Index (the "Underlying Index").

#### Strategy

The Manager intends to adopt a full replication strategy through investing all, or substantially

all, of the assets of the Sub-Fund directly in substantially all securities constituting the Underlying Index in substantially the same weightings as these securities have in the Underlying Index to achieve the investment objective of the Sub-Fund ("Replication Strategy").

Where the adoption of a Replication Strategy is not efficient or practicable or is otherwise at the Manager's absolute discretion, the Manager may pursue a Representative Sampling Strategy and hold a representative sample of the constituent securities of the Underlying Index selected by the Manager using quantitative analytical models to derive a portfolio sample. Investors should note that the Manager may switch between the Replication Strategy and the Representation Sampling Strategy without prior notice to investors, in its absolute discretion.

The Manager has no intention to invest in financial derivatives instruments (or to adopt a synthetic replication strategy) nor to engage in securities lending or repurchase transactions in respect of the Sub-Fund. Any change in the Manager's intention to enter into any securities lending or repurchase transactions in respect of the Sub-Fund is subject to prior approval of the SFC and not less than one month's prior notice (or such other notice period as agreed with the SFC) will be given to unitholders should there be a change in such intention.

The Sub-Fund will not invest in A-shares.

### Index

The Underlying Index is a selection of the 30 largest stocks with positive earnings growth belonging to the Consumer Discretionary Global Industry Classification Standard (GICS®) Sector, listed across global developed markets. Examples of companies in the Consumer Discretionary sector are companies from the Automobiles & Components, Consumer Durables & Apparel, Consumer Services, Media, and Retailing industries. Countries classified as developed markets are Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Italy, Japan, Korea, Luxembourg, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, United Kingdom and United States. The Underlying Index is calculated and maintained by Standard & Poor's ("S&P"). The Underlying Index was launched on 21 July 2011 and is a net total return index. The Manager (and each of its connected persons) is independent of S&P.

As at 31 August 2018, the Underlying Index had a total market capitalisation of US\$ 2,927,170.82 million.

As at 31 August 2018, the 10 largest constituent stocks of the Underlying Index, as listed below, represented about 39.51% of the Underlying Index:

### What are the key risks?

**Investment involves risks. Please refer to the Prospectus for details including the risk factors.**

#### 1. General investment risk

- The Sub-Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the fund may suffer losses. There is no guarantee of the repayment of principal.

#### 2. Equity market risk

- The Sub-Fund's investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.

#### 3. Consumer discretionary sector risk

- The performance of companies active in the consumer discretionary sector are correlated to the growth rate of the global market, individual income levels and their impact on levels of domestic consumer spending in the global markets, which in turn depend on the worldwide economic conditions, which have recently deteriorated significantly in many countries and regions and may remain depressed for the foreseeable future.

**Mirae Asset Horizons Exchange Traded Funds Series -  
Mirae Asset Horizons S&P Global Consumer Brands ETF**

- There are many factors affecting the level of consumer spending, including but not limited to interest rates, currency exchange rates, economic growth rate, inflation, deflation, political uncertainty, taxation, stock market performance, unemployment level and general consumer confidence.
- Any future slowdowns or declines in the global markets economy or consumer spending may materially and adversely affect the business of the companies in the consumer discretionary sector and as a result the performance of the Sub-Fund.

**4. Concentration risk**

- The Sub-Fund's investments are concentrated in the consumer discretionary sector. The value of the Sub-Fund may be more volatile than that of a fund having a more diverse portfolio of investments.

**5. Risks related to restrictions on foreign investors**

- Asian stock exchanges may require prior governmental approvals or impose limits on the amount or types of securities or companies in which foreigners may invest. These restrictions may limit the Sub-Fund's investment in certain countries, increase its costs and impact its ability to accurately match the Underlying Index.

**6. Trading differences risk**

- As the stock exchanges established outside Hong Kong may be open when Units in the Sub-Fund are not priced, the value of the securities in the Sub-Fund's portfolio may change on days when investors will not be able to purchase or sell Units of the Sub-Fund.
- Differences in trading hours between relevant stock exchanges established outside Hong Kong and the SEHK may also increase the level of premium or discount of the unit price to its net asset value.

**7. Passive investments**

- The Sub-Fund is passively managed and the Manager will not have the discretion to adapt to market changes due to the inherent investment nature of the Sub-Fund. Falls in the Underlying Index are expected to result in corresponding falls in the value of the Sub-Fund.

**8. Trading risk**

- Generally, retail investors can only buy or sell Units on the SEHK. The trading price of the Units on the SEHK is driven by market factors such as demand and supply of the Units. Therefore, the Units may trade at a substantial premium/discount to its net asset value.
- As investors will pay certain charges (e.g. trading fees and brokerage fees) to buy or sell Units on the SEHK, investors may pay more than the net asset value per Unit when buying Units on the SEHK, and may receive less than the net asset value per Unit when selling Units on the SEHK.

**9. Tracking error risk**

- The Sub-Fund may be subject to tracking error risk, which is the risk that its performance may not track that of the Underlying Index exactly. This tracking error may result from the investment strategy used, and fees and expenses. The Manager will monitor and seek to manage such risk in minimizing tracking error. There can be no assurance of exact or identical replication at any time of the performance of the Underlying Index.

**Mirae Asset Horizons Exchange Traded Funds Series -  
Mirae Asset Horizons S&P Global Consumer Brands ETF**

**10. Termination risks**

- If S&P terminates the Underlying Index or does not allow the Sub-Fund to use the Underlying Index, and there is no successor index or if its fund size falls below HK\$50,000,000 the Sub-Fund may be terminated. Investors may not be able to recover their investments and suffer a loss when the Sub-Fund is terminated.

**11. Dividend distributions**

- Dividend distributions are not guaranteed, and therefore, investors may not receive any dividends from the Sub-Fund.

**12. Risk associated with regulatory or exchanges requirements of equity markets**

- Securities exchanges on which the constituents of the Underlying Index are traded may have the right to suspend or limit trading in any security traded on the relevant exchange. The government or the regulators may also implement policies that may affect the financial markets. All these may have a negative impact on the Sub-Fund.

**13. Reliance on market maker**

- Liquidity in the market for the Units may be adversely affected if there is no market maker for the Sub-Fund. Although the Manager will ensure that at least one market maker will maintain a market for the Units and that at least one market maker gives not less than 3 months' notice prior to terminating market making arrangement under the relevant market maker agreement, liquidity in the market for the Units may be adversely affected if there is no or only one market maker for the Units. There is also no guarantee that any market making activity will be effective.

**14. Currency risk**

- Underlying investments of the Sub-Fund may be denominated in currencies other than the base currency of the Sub-Fund. The net asset value of the Sub-Fund may be affected unfavorably by fluctuations in the exchange rates between these currencies and the base currency and by changes in exchange rate controls.
